

Kick It To Me!

The table below shows the results for a football league. It is your job to calculate each team's premiership points and percentage. When you have completed each team's results, cut out each team and paste them to create a ladder showing first place through to last.

Team	Games Played	Wins	Losses	Draws	Premiership Points	Points For	Points Against	Percentage
Eagles	8	2	6	0		407	736	
Crows	8	4	3	1		624	598	
Kangaroos	8	1	7	0		499	831	
Possums	8	5	3	0		994	684	
Wombats	8	3	4	1		519	628	
Emus	8	4	4	0		606	625	
Cockatoos	8	2	6	0		398	672	
Snakes	8	6	2	0		818	409	
Koalas	8	4	4	0		646	782	
Echidnas	8	8	0	0		994	284	

Rules:

A win is worth 4 premiership points.
A draw is worth 2 premiership points.
A loss is worth 0 premiership points.

Percentage is figured by:

$100 \times (\text{Points For} \div \text{Points Against})$
