

## Play the Corridor

Grandpa tells Tom that the Collingwood teams plays the 'corridor' down the centre of the ground. They do this to avoid accidentally putting the ball out of bounds and giving the opposition a free kick. Today we are going to see how fast you can travel down the corridor! Choose a number between 2 and 10. Multiply your number by the number in the right hand column and write your answer in the left column. Time how fast it takes you to get down the corridor.
